

**What does your ideal structure look like?**

LET US DESIGN & BUILD IT FOR YOU.

At CDB, we see things differently. The bulky 2-tonne steel box which has travelled the world & seen more cargo than most could ever dream of, is the idyllic building block in a craft referred to as ‘CARGOTECTURE’.

Whether you’re looking to add that garden home office or annexe, open a pop-up restaurant/cafe or creative an inspirational unique workspace for your business, we can help you visualise your dreams with our high-end design fabricated shipping container spaces.

Our UK design team will work diligently to help you draw up a brief and realise your goal, supported by both 3D visualisations & architectural blueprints. Work doesn’t commence until its 100% signed-off by both the client & the team, in which the design team are then tasked with bringing those ideas into reality, working alongside the workshop to ensure the highest level of craftsmanship throughout.

The final step and perhaps the most exciting is commissioning day—in which we deliver, install and celebrate the widely anticipated grand reveal to you the client.

Our type of projects:

Office

Home

Entertainment

Food / Drink

Retail

Events

What would you prefer? Can you think of something else?

We will help you design your ideal space.

## CUSTOM-SIZED SINGLE CONTAINER

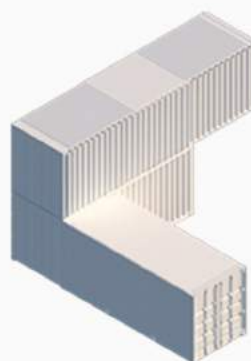

## MULTIPLE CONTAINERS

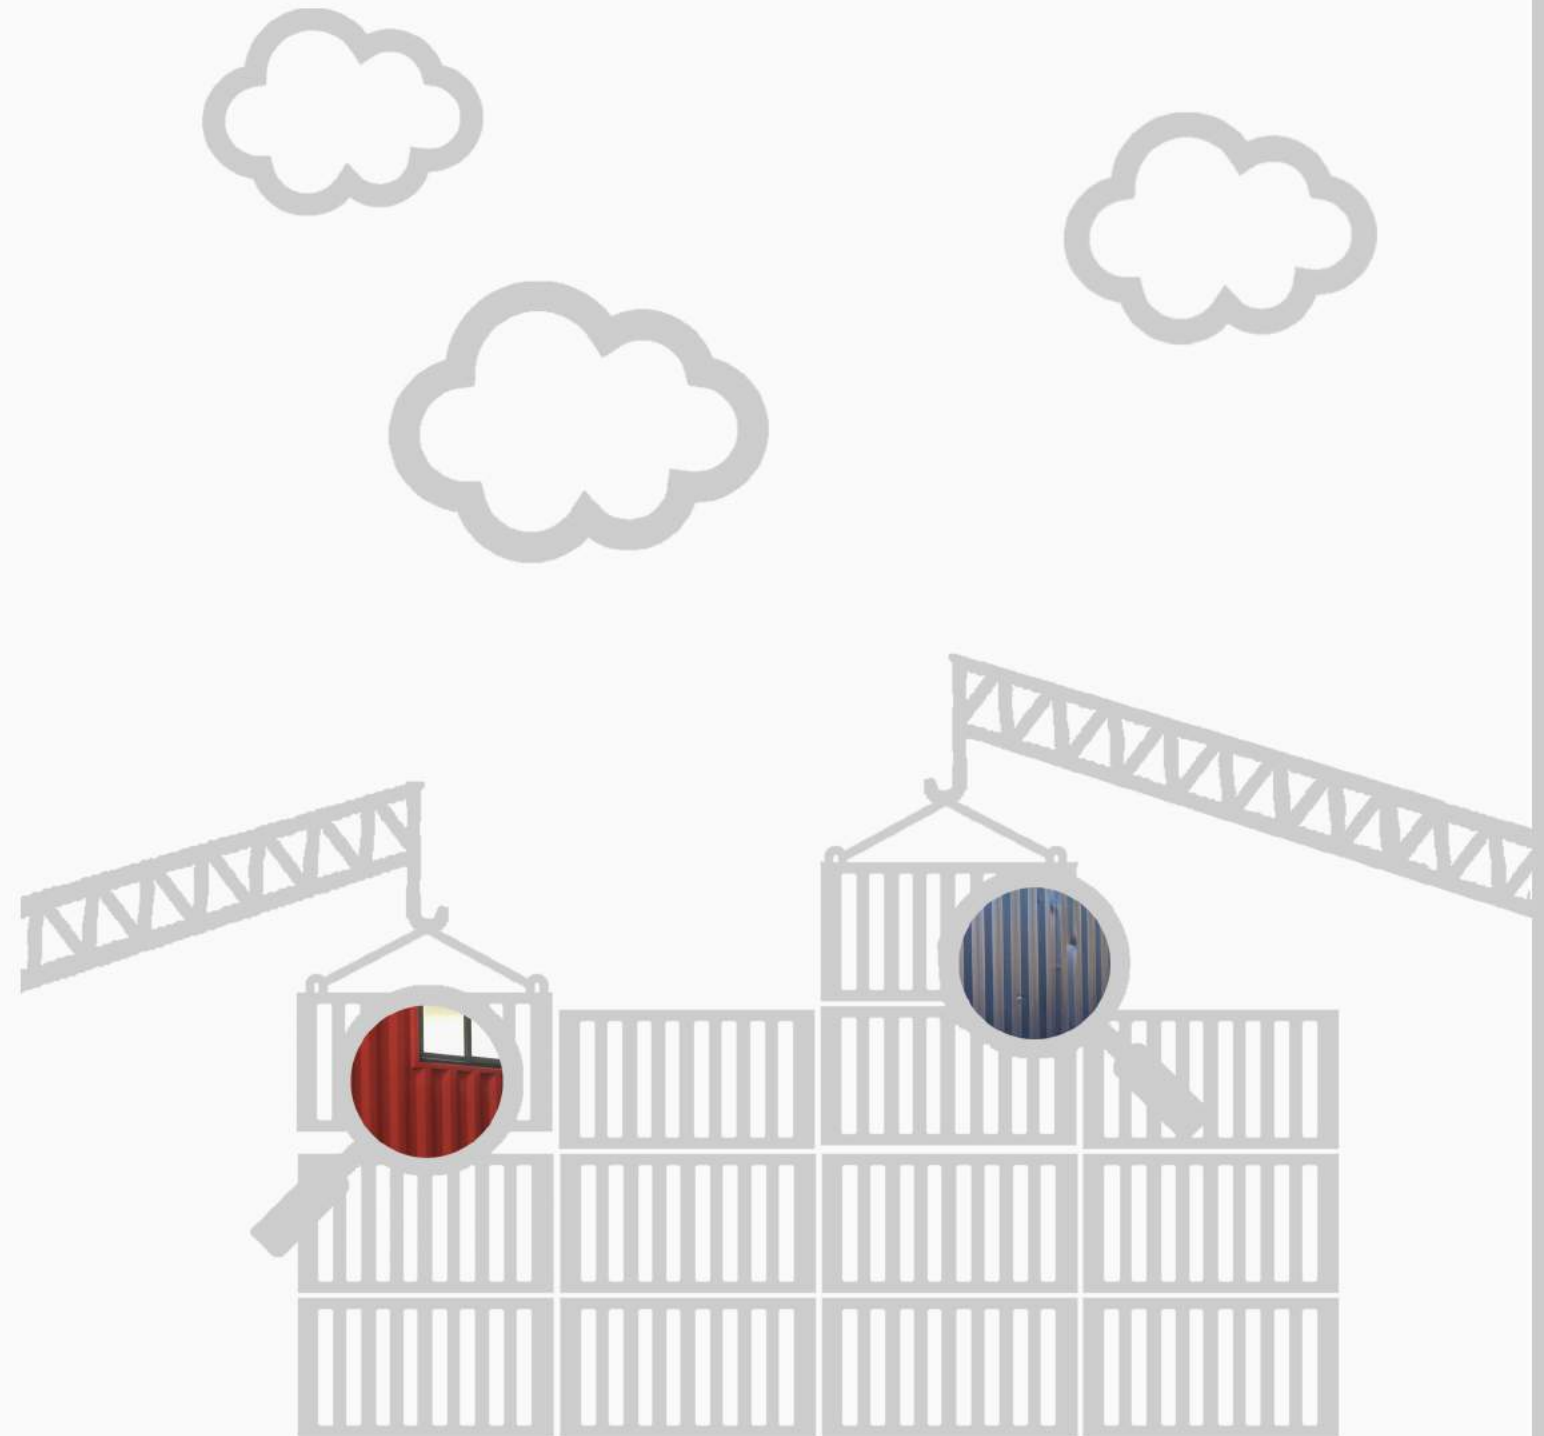

IF MORE SPACE IS  
NEEDED...

OR

OR...  
**ANYTHING** YOU  
COULD THINK OF

**What would you prefer?**

NEW CONTAINER

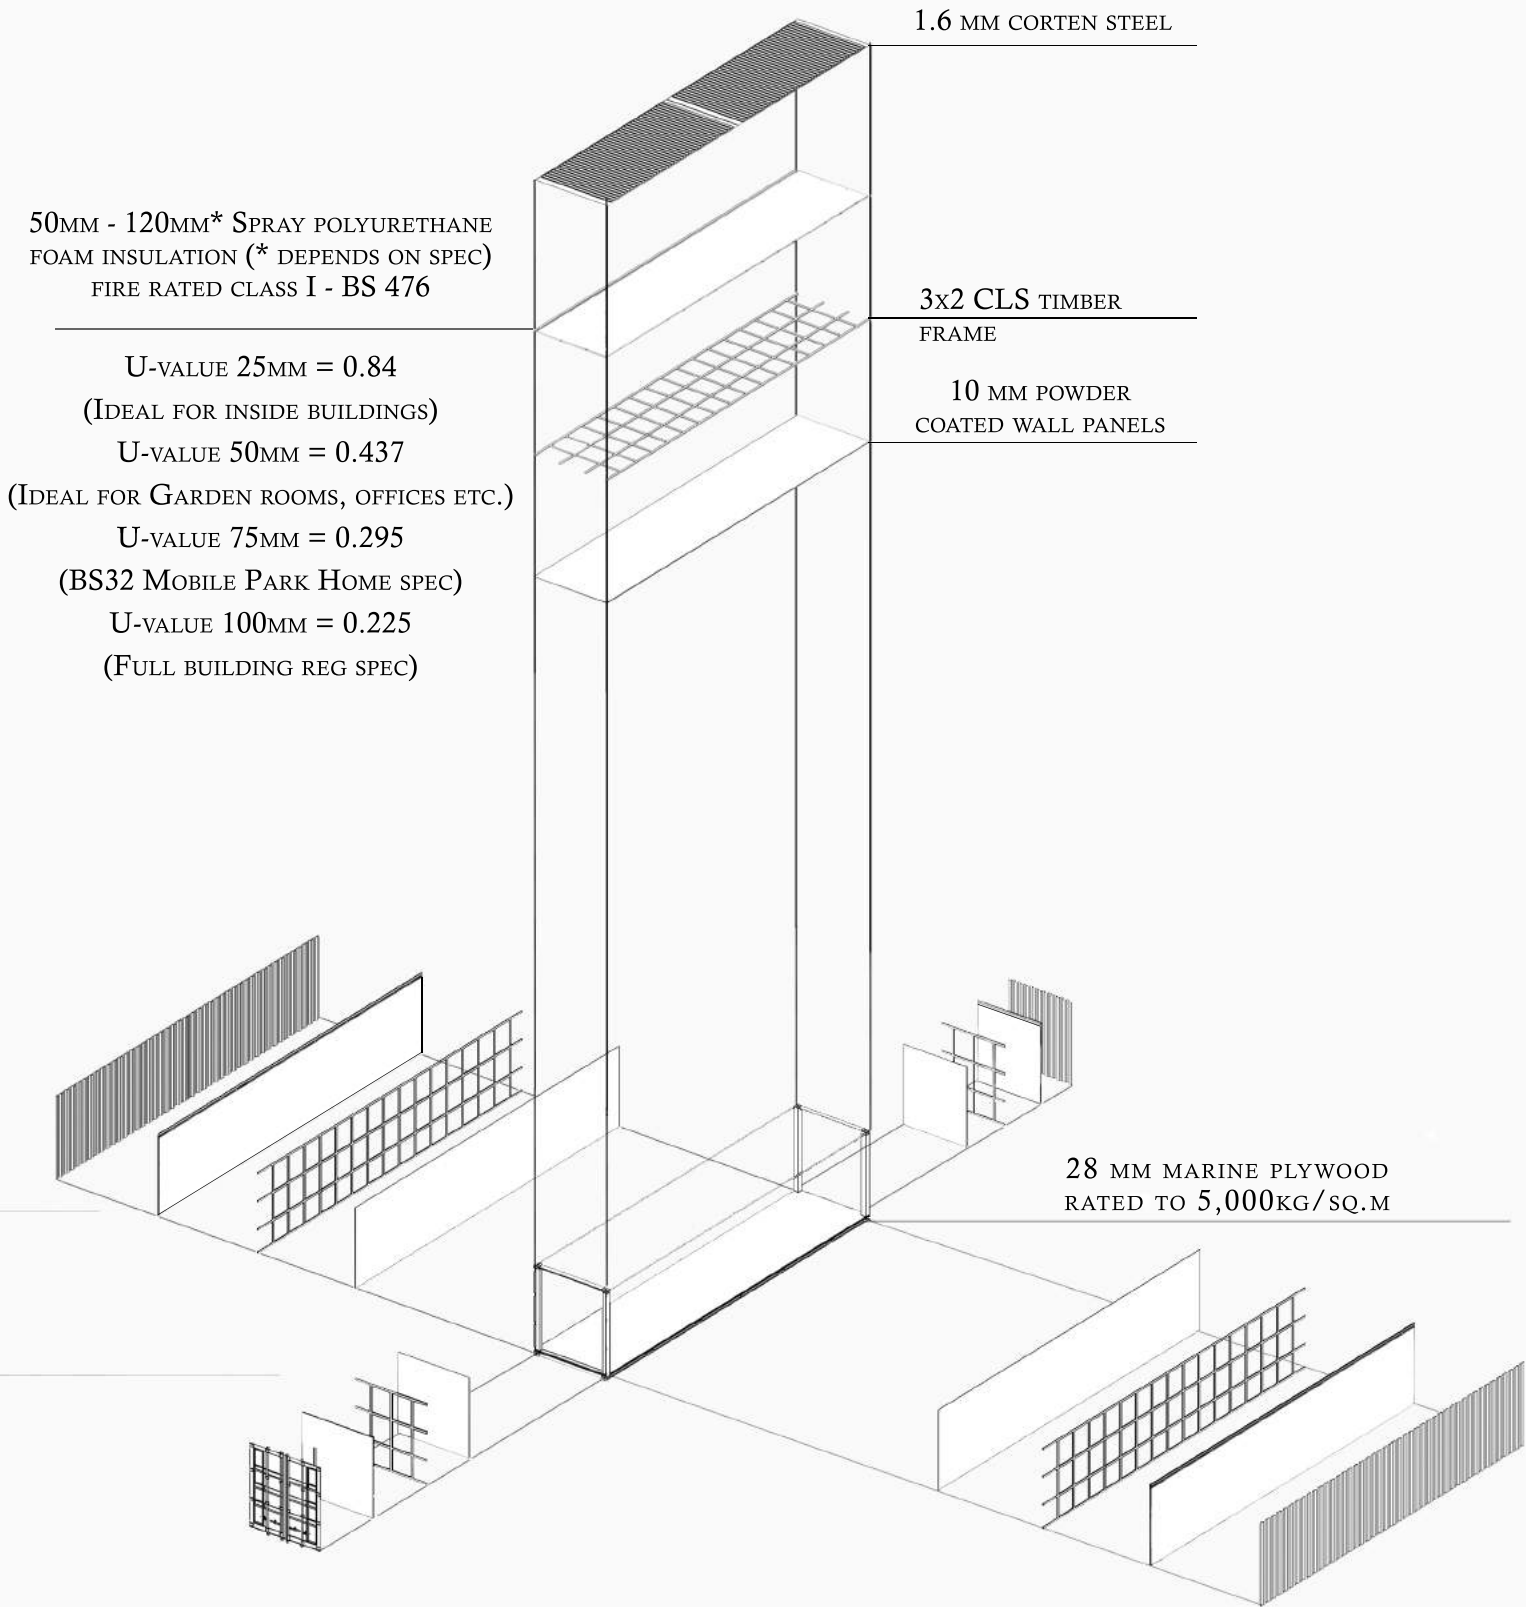

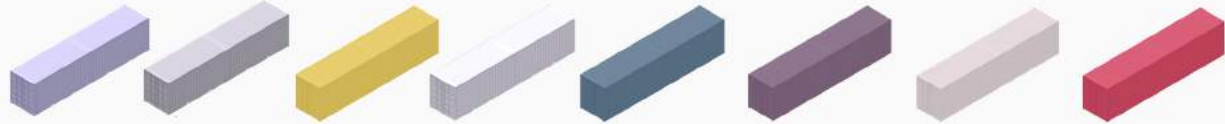

USED CONTAINER

BOTH TYPES OF CONTAINERS ARE FRESHLY PRIMED AND PAINTED!  
YOU CAN HARDLY TELL THE DIFFERENCE BETWEEN THE TWO.

WE OFFER ANY RAL COLOUR FINISH AS ALL OUR PROJECTS ARE BESPOKE.

SINGLE COAT ANTICORROSIVE COATING, SPECIALLY DEVELOPED FOR DRY CARGO TRANSPORT CONTAINERS, ISO TANK CONTAINERS AND ANTI VANDAL INDUSTRIAL STEEL FABRICATIONS. IT CONTAINS ZINC PHOSPHATE ANTICORROSIVE PIGMENT AND THUS OFFERS A HIGH LEVEL OF ANTICORROSIVE PROTECTION IN AGGRESSIVE ENVIRONMENTS, TESTED FOR RESISTANCE TO BS148 TRANSFORMER OIL FOR 196 HOURS AT 90°C AT APPROX. 100 µm.
